Framework	Astro	7.x
Styling	Tailwind CSS	v4.3.3
Language	TypeScript	strict mode

Layer	Teknologi	Versi
Animation	GSAP + ScrollTrigger	3.12.5
Smooth scroll	Lenis	1.1.13
Icons	Lucide	bundled lokal
Content	Astro Content Collections (MDX)	—
Hosting	VPS (Nginx + SSL Let's Encrypt)	—
Package manager	npm	12.x
Node	v24.16.0	—

Trade-off: Astro dipilih (bukan Next.js) karena static output, build cepat, biaya murah, cukup untuk multi-page. Tailwind v4 (bukan v3) karena project sudah pakai v4 sejak awal.
